Dear Broker:

Thank you for your interest in working with PRN Funding! I would like to take this opportunity to more formally introduce you to PRN Funding, LLC, an entrepreneurial accounts receivable factoring company. PRN Funding, LLC is focused exclusively on providing funding for companies that deliver products and services to healthcare providers on a national basis. Our clients include temporary nurse staffing agencies, medical transcription services, medical coding companies, medical billing companies, private duty home care agencies, etc. We are experts in efficiently and professionally funding and managing receivables due from hospitals, physicians, nursing homes and other ambulatory facilities.

PRN Funding is financed privately, providing a tremendous amount of flexibility in evaluating and structuring financing arrangements for your customer base. Specifically, due to our background in healthcare services, we are quite comfortable financing receivables that are likely to age for 30, 60, 90 or even 120 days. With no minimum deal size or term specific factoring agreement, we may be able to provide funding to your clients who value flexibility.

Of course, we are pleased to pay a 10 percent referral fee to financing professionals who assist in arranging financing. Please sign the broker agreement and fax or send a copy of it to me at your convenience.

For more information please don't hesitate to contact me directly at (866) 776-5407 or via e-mail at schmielecki@prnfunding.com. In addition, you can get more information about PRN Funding on our web site at www.prnfunding.com.

Thank you in advance for your time and consideration.

Best regards,
